

CERTIFICATE OF COMPLIANCE**Toxic Substances Control Act (TSCA)****U.S. Environmental Protection Agency (EPA) List Update: May 2024**

As required under the Toxic Substances control Act (TSCA), EPA issued five final rules on March 8, 2022 to reduce exposures to certain chemicals that are persistent, bioaccumulative and toxic (PBT).

FATH GmbH has reviewed this PBT list and none of our products contain the below mentioned substances in a concentration or form that would produce toxicity. Chemicals used in manufacturing are in compliance with EPA regulations.

- Decabromodiphenyl Ether (decaBDE) – CASRN: 1163-19-5
- Phenol, Isopropylated Phosphate (3:1) (PIP 3:1) – CASRN: 68937-41-7
- 2,4,6-tris (ter-butyl)phenol (2.4.6-TTBP) – CASRN: 732-26-3
- Pentachlorothiophenol (PCTP) – CASRN: 133-49-3
- Hexachlorobutadiene (HCBd) – CASRN: 87-68-3

As part of TSCA and in accordance with Title 40 of the Code of Federal Regulations Part 721, any significant new use of an identified substance in any manner will be evaluated and reported, if needed, to ensure a workplace and environment that protects human health.

We are committed to ensuring continuing compliance with hazardous substances initiatives such as RoHS, REACH and TSCA. We will continue to monitor any changes to the legislation. If you require further information about the impact of TSCA on our products, or if you have questions about our compliance with other regulatory statutes, please contact your FATH GmbH customer service representative.
